District Brochure:

The District Brochure will be mailed out state-wide January 7. Brochure development must be completed before Thanksgiving break so if you have items that showcase excellence and accomplishment on your campus, it must be submitted by **November 27**. Remember this is for the **2018 calendar year**.

Student and Teacher of the Year

Application review will take place in December 2018. Students will be required to complete both portfolio and interview with writing from the portfolio judged; a portfolio development workshop will be available for students and schools are also encouraged to help students prepare portfolios and go through a mock interview before district competition. Teachers will be required to complete a video with their application and must show evidence/data of success with student achievement—please be sure nominees have data to support their application. Without this they will not be considered at the state level. A hard copy of the application will be required for the district judging with link to the video included—**DVDs will not be accepted**. Teacher videos will be scored using the COMPASS rubric. Expect both SOTY and TOTY applications to be completed and submitted by **December 11** with review to follow before the Christmas holidays.
