[Pico Wireless Control With Nightlight](#)

3-Button with Raise/Lower

Provides on, off, preset and raise/lower for lighting control; open, close, preset and raise/lower for control of automated shades; or open, close, preset and adjust buttons for control of automated drapes. In addition, blind control option provides open, close, preset and tilt. Raise/lower control for blind control is achieved through the stop-while-moving functionality of open and close buttons.

Available for the following solutions:

Pico Wireless Control With Nightlight

Select new Pico wireless control models will offer an optional softly-glowing nightlight feature to help the user quickly locate the control in a darkened room. Ideal for bedrooms and hospitality applications, the nightlight will glow continuously for 3-years on a single battery.

Available for the following solutions:

Caséta™ Wireless [View model numbers](#)
 Maestro Wireless® [View model numbers](#)
 Energi TriPak™ [View model numbers](#)
 GRAFIK Eye® QS [View model numbers](#)
 RadioRA® 2 [View model numbers](#)
 Homeworks® QS [View model numbers](#)
 Energi Savr Node™ Solutions [View model numbers](#)
 Quantum® [View model numbers](#)
 myRoom [View model numbers](#)

Accessories

Lutron offers accessories to enhance the flexibility of the Pico wireless control. The tabletop pedestal is offered in configurations to support up to 4 Pico wireless controls and is available in white or black finishes. When mounting a Pico to a wall or over an existing wallbox, the wallbox adapter allows for easy installation of the control in a Claro faceplate.

Available for the following solutions:

Caséta™ Wireless [View model numbers](#)
Maestro Wireless [View model numbers](#)
Energi TriPak [View model numbers](#)
GRAFIK Eye QS [View model numbers](#)
RadioRA 2 [View model numbers](#)
