

THE CHOSEN BEAN

SPECIALTY COFFEE

Specialty Cold Brew & Ground Coffee's!

About Us

About a decade ago, Moshe Ruza began roasting coffee in his backyard. That's when he became a man obsessed with his hobby and the idea of creating what is today, The Chosen Bean Brand.

When Mendy Dalfin moved in three doors down, they knew it was fate. By 2014 they were ready to take their love for coffee to the next level. Together they were going to take the coffee world by storm.

What separates us from other coffee companies is not only our attention to fine detail but our determination to find unique flavors from small coffee growers around the globe.

We chose our beans after scouring the earth for the freshest, tastiest, organic, fair trade beans. Then we roast countless samples before we select the perfect taste for The Chosen Bean.
