Classes are geared to students going into 2nd - 10th grade.

Students are divided into two age levels, with no more than 7 students per level.

About Our Program:

The Summer Academy at Eg² is not your typical summer camp. Our series of workshops offer a chance for young artists to focus on the foundations of art and design while developing traditional techniques. In each workshop, students will explore meaningful concepts and practices with a variety of art mediums. Students can expect to create a collection of drawings, paintings, sculptures and/or prints during each session. The projects in each session will vary, so students may attend multiple sessions without fear of repetition. Limited workshop sizes create an opportunity for individual attention and a focused advancement of each artist's skills. Workshops are carefully designed to offer a full array of visual art techniques that will stimulate, challenge, and encourage young artists.

Each week students will be spending about half of their time doing traditional, observational art activities, and the other half doing age appropriate projects based on the theme of the week. The Summer Academy at Eg² is geared to students going into 2nd-10th grade.

Read more about our themed weeks:

Drawing & Illustration: Students will be focusing on illustration techniques, line quality and the basic elements of composition and value. This workshop will also focus on light, color and observational skills.

Painting: Students will be studying portraiture and still life while mastering traditional and modern painting styles. A focus on line quality, composition and color relationships will be taught within this workshop. Students will be working with watercolor, acrylic and ink amongst other mediums.

Mixed Media: Students will be taught necessary techniques on combining different mediums. We will be working with an array of materials and there will be a large focus on composition and planning of work. Some techniques we will be working on in this workshop include collage, transfers, glazes and much more!

Sculpture: Students will be working with paper mache, plastic, foam and other alternative sculpture materials. Students will develop non-traditional techniques while learning about form, composition and negative space.

Printmaking: Students will be learning about monoprinting and rubbercuts. Everyone will have a chance to create his or her own design and will print upon a variety of materials. Book making is also a staple of this week, students will learn a variety of binding techniques and will leave with their own hand-bound book.

Don't Forget:

- Students need to bring lunch, a drink or water bottle, and a snack. There is no refrigerator so pack lunch with an ice pack.
- Kids will get messy - they will be provided an apron, but wear clothes that can get dirty
- Safety first: Please wear closed-toe shoes
- Each Student will create their own collection of artwork each week - be prepared to take them home
- All materials will be provided by Eg²
