

OPEN TO FLOOR:

H/O – Questioned if whether or not we need special engineer’s approval to do dock work.

Al L: No, we’re doing repair not full replacement such as the pilings, etc.

Ron: Will speak with tree trimming company regarding the outer-rim trees and what is our liability to maintain, trim etc.

H/O Addressed issue regarding cracks in the driveways. The Meadows is responsible for the driveways once completed, which is why we more demanding as how they’re done.

H/O Bad idea to label cars with indentifying sticker w/respect to security when outside The Meadows

Ron: Spoke on the Mission Committee, they should submit suggestions for improving our security.

Jim: Why are we putting camera in the office, shouldn’t we all be informed prior to doing it?

Ron: We’ll discuss further.

Rob: Pool light which is not working is not needed and we don’t need to spend excessive money.

Ron: We’ll discuss it further.

H/O Spoke on concern over pool music arguments.

Rob: Current pool rule is “NO MUSIC”. If after having checked with all others in the pool, there is no objection, then it’s ok to play it at a reasonable level. If anyone requests to turn it off, turn it off or use your headphones. If the community wants to change the rule, submit it to the board for review.

Robin: Suggested if the music bothers you, bring headphones to not have to hear it.

MEETING ADJOURNED: 8:P.M.

*Respectfully Submitted,
Rob Schwerdtfeger, HOA Dir.
Recording Secretary 04/22/19*
