Additional Performance Credit Calculations and Supplemental Information

Describe below the progress made in meeting your program year work plan inspection goals. You must provide quantitative results for each compliance inspection and land application goal listed in your work plan.

First Inspection goal from our work plan was in conduct 8 inspections within shoreland, DWSMAs, TMDL areas and other high risk areas. We were able to complete the 8 inspections for this goal. Our second goal was to complete 2 inspections that in the past have not maintained adequate land applications records. We were able to complete both of these inspections also. Our third inspection goal was to complete in field land application within a formally designated TMDL, WRAPS, or 1W1P area. We were only able to complete 1 inspection that met this goal. The rest of our inspections were done on a rotating bases in order to continue to inspect all sites.
