Specialty Packages

- (16)Custom Package - this allows you to design a package that best meets your needs. A custom package is assembled by combining services listed under "Additional Services". The cost of this service includes a \$7.00 base fee plus the cost of the individual items selected. For example, if you want CP (\$6), NDF (\$6), Ca and P (2 minerals, \$10), the cost of the package is \$29. No base fee is required when you select a standard package and add supplemental services to it. For example, if you select #11Ration Balancer (\$36) plus Fat (\$9), the total cost is \$45.
- Fermentation Profile \$25 for evaluating silage quality lactic, acetic, lactic/acetic ratio, propionic, butyric, iso-butyric, VFA score, total acids, pH, crude protein, (207)crude protein equivalent from ammonia, and ammonia N as a percentage of total N. Goal, typical and graphical results are displayed to aid in interpretation.
- Animal Byproducts \$42 must be used for all products of animal tissue origin. Any animal product requesting any other package will automatically be assigned (314)this service and charged accordingly. DM, CP, SP, fat, ash, TDN, NEI, NEm, NEg, ME, DE, Ca, P, Mg, K, Na, Fe, Zn, Cu, Mn, Mo, S.
