In Old business we we're talking about riding in the Lamb and wool fair parade as a club. We feel we need to get the word out that our club still exists and to start planning fun parade rides and activities.

We're also wanting to set up a permanent trail course, Something for right now to have to play on and eventually have one that well do a class with and have a judge. So were trying to get together some obstacles to set up for the course.

New business: I talked to Jason, His company is going to donate all the wood materials we need to rebuild the pump house and the bathrooms, and giving us a good discount on the other materials we'll need.. I'm waiting on Ken Studnick to get a material list for me. Jason is also going to get us a banner to put up as his company is a sponsor now! Laurie presented us with a contract for people to sign when they use our facilities. It's a contract to make sure our grounds and clubhouse is left clean when their event is over.
