IMPORTANT NOTES: Occasionally Lose Your Illusion may add production, depending on venue's capabilities. These additions may include, but not limited to; an acoustic set-up where (2) D.I.'s may be needed for rhythm guitar and bass on stage right, a vocal microphone on a boom stand on stage left for talkbox set-up for lead guitarist, and if screens are available we will have our own video production on a usb/thumb drive. Stage manager/crew will be made aware of any extra production no later than a week before performance. For production questions please call or text Mano at (562) 209-7657 or mano@loseyourillusion.com. Text is preferred.
