

(Large) PA system information for organisers and performers

What will be provided for you:

Full 12,000w FOH PA system.

4 way monitor system speakers are provided (non can be added)

All microphones provided inc drum mics (non can be added)

All cables are provided for inputs/DI, instruments, etc (unless you have a specific unusual type you know you need eg. laptop etc.).

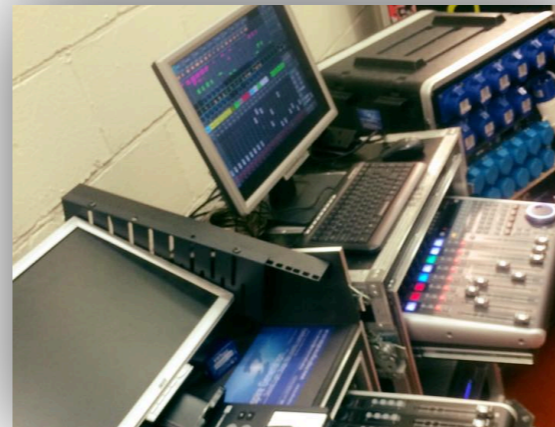

Power will be provided around the stage in the form of 13amp sockets

What artists/bands need to bring:

Own instruments (guitars, keyboard, drums, etc).

Own guitar/ bass amps (if required)

If the organiser has said it will be a 'breakables' setup- read this as you need to bring everything you normally would apart from FOH speakers/monitors, bass drum and toms incase

Appropriate performance policy

All of the above and the following is subject to the event organiser's agreed contract with us for the event.

Be respectful of the equipment and look after it. Due to sound engineering reasons and achieving the best, consistent sound for all, only equipment owned by Inspire Generation may be used on our setups. No mics, effects boxes (before the mic input) or In Ears may be used (Unless prior arranged with IG directly 7 days before the event). We have our own effects used in accordance with you. We always operate a strict no open drink container policy on all of our events. To prepare for a performance please ensure you have a bottle with you for a drink. Any rude, offensive, unprofessional or alcohol/drug influenced behaviour will result in termination of a performance and ejection from the venue and potentially law enforcement involvement.
