Course Format and Approach

Straight “A” Academy firmly believes in the socratic method which combines a direct teaching approach with the asking of questions to promote participation and encourage critical thinking. Students will be called upon to answer questions as part of the Straight “A” method. While some topics will be taught in the traditional lecture style, lessons will always be interactive and engaging. Test taking strategy is a vital part to score improvement. Students will be taught a variety of test taking strategies developed by Straight “A” Academy that have been proven to help students work faster and more efficiently on the P/SAT & ACT which may result in higher scores. Straight “A” will work on filling in any content gaps students may have; however, we cannot reteach or teach an entire subject. In some cases where extreme content gaps are recognized in students, private tutoring may be recommended as an alternative form of training or in conjunction with the course training.

Each class includes:

- Interactive and dynamic lecture to introduce strategies & fill in content gaps.
- In depth discussion and analysis of errors on assigned homework.
- Tailored instruction based on the starting scores of each class.
- In class untimed and timed drills.
- Straight “A” Academy Immersion Prep workbook.

Students receive the following additional feedback and support:
