SENSATIONAL SINKS, FABULOUS FAUCETS & MORE ~ **2016 CATALOG**

# WELCOME TO LENOVA<sup>®</sup>

DESIGN INSPIRED BY FUNCTION

**Discover a world where innovation is cherished, where inspiration is given free reign, and the beauty of nature is a never-ending source for design ideas.** Here we transform the ordinary into the exceptional and continually search for new perspectives to re-imagine the mundane.

Lenova is known for spectacular sinks crafted by hand from a stunning array of materials, from globally sourced stone to sustainably harvested bamboo. We are proud to continue this tradition in our 2016 catalogue with an extensive collection of exquisite sinks. We are also eager to introduce an exciting assemblage of faucets and accessories that have drawn considerable attention.

Don't miss our fabulous Ledge Sink, a ground-breaking design that won Best of the Year from Interior Design Magazine. With its stainless steel construction and impressively practical accessories, this is a work-horse of a sink that will last a lifetime in the busiest of kitchens.

And speaking of busy kitchens, our new Aqualogic faucet uses the power of ozone water to keep even the most hectic kitchens germ-free. As the only sanitizing faucet approved for household use in the US, this chemical-free faucet is earning rave reviews for its singular ability to kill food pathogens and safely clean cutting boards and cooking utensils.

We have expanded our offerings to include a full line of solid stainless steel faucets too. The line includes a wide variety of models designed to fit any kitchen with styles ranging from sleek and modern to elegantly traditional. The real show-stoppers, though, are our beautiful sinks. Choose a design crafted from modern elements like stainless steel, composite, porcelain or glass. Or select something organically-inspired, such as bamboo, fireclay, stone, copper or bronze. Oh, the possibilities!

Lenova was founded in 2007 on the idea that luxury design should be both beautiful and affordable. The visionary behind the concept was Chris Lee, an entrepreneurial spirit with two PhDs and an extensive background in sink manufacturing. He chose a celestial-inspired name for the company that reflected his dream of establishing a new star in the decorative plumbing industry, one that would blaze to new heights of quality, design and customer service.

As our company has grown, we have remained true to that vision. We protect the environment that inspires us with sustainable business practices. We respect our employees and believe in the quality of our products. And most of all, we appreciate our customers. Our "no worries" customer service philosophy means that we are committed to ensuring each customer is supremely happy with their Lenova experience. It's all part of who we are.

A minimalist sink with maximum advantages. The first real change in sink design in decades. The exclusive **PERMACLEAN** system has a streamlined modern look and an innovative drain design, disposal and drain seams disappear for a stylish and sanitary solution to the traditional kitchen sink drain. A fundamental shift in sink design, **PERMACLEAN** sinks feature removable splash guards that are dishwasher safe and strainer baskets seal both the drain and garbage disposer, The heavy duty 304, 16 gauge stainless with an elegant silk easy clean finish compliments any decor.

**LEDGE COLLECTION**

Sink: SS-OT-D33 Faucet: SK103

The award-winning **LEDGE SERIES** features an engineered platform in the front and back of each sink that converts it to a food prep center when accessorized with optional stainless steel colander, unique roll-up grid drainer and bamboo cutting board. The double bowl features a low divider so large pans with long handles fit easily. Designed to be either drop-in or undermounted, the sinks are constructed of durable, commercial-grade 304, 16-gauge stainless steel to ensure they will last a lifetime in a busy kitchen. The **LEDGE SERIES** won Best of the Year from Interior Design Magazine.

# ENTERTAINER SINK

The **ENTERTAINER**, it's the center of attention before, during and after the party. A split cutting board hides the sink and preserves precious counter space when not in the party, a wine chiller, a condiment station, and bar during the party and then clean up station after the party. The Entertainer is more than the sum of its parts and will prove to be the gathering spot at your next party.

The bamboo cutting boards and all the sink top accessories are included with the sink.

Lenova's reversible **FIRE CLAY FARM SINK** offers two design styles in one. The sinks are reversible, offering an elegantly sculpted side and a sleek, simple side for maximum flexibility in design. The **FIRE CLAY FARM SINKS** feature the durability and beauty of fire clay with Italian craftsmanship that will add style to any kitchen.

The sinks are fired at extremely high temperatures to produce a non-porous surface that is resistant to stains and scratches with an exceptionally durable, gloss finish sure to withstand heavy kitchen use for years to come.

FIRECLAY FARM SINK

For every bamboo sink purchased, we contribute \$10 to the restoration of Panda habitat for enjoyment of our future generations.

Lenova has brought a welcomed sense of eco-friendly style to the bath with its **BAMBOO COLLECTION**. Featuring all the organic warmth and natural beauty of wood, this eye-catching collection is surprisingly durable and can easily withstand the rigors of daily use in any bathroom. Using a 13-step process, each sink is carefully crafted from fully matured Moso Bamboo, which is known for its peak density, color clarity and sustainability. The finished product is exceptionally beautiful and the good it does for our planet is returned to the user in how well bamboo harmonizes with organic and more contemporary designs.

# THE EMPEROR'S COPPERSMITH

Not far from the gates to the Forbidden City sits the factory that makes our fine copper sinks. Said to be in the same building, with many of the same tools, by the same family that has been there hammering copper for centuries. True beauty is timeless.

## COPPER KITCHEN COLLECTION

Our exquisite **COPPER KITCHEN COLLECTION** will add a richness that comes only from copper. Made of the highest quality copper in 15-gauge, they are lead and mercury free. Copper is considered to be a living finish that ages with use and develops a beautiful patina. Copper is also naturally hypoallergenic, recyclable and corrosion resistant. Each sink is hand hammered in a process called "work hardening" that strengthens the material. Known as the "red metal" copper possesses a color like no other. It will add a special warmth and beauty to any kitchen.

**COPPER BATH COLLECTION**

Sink: CB-120

Our sensual **COPPER BATH COLLECTION** will give any room a soothing atmosphere. Made of the highest quality copper in 15-gauge, lead and mercury free. Copper is considered to be a living finish that ages with use and develops a beautiful patina. Copper is also naturally hypoallergenic, recyclable and corrosion resistant. Each sink is hand hammered in a process called "work hardening" that strengthens the material. Known as the "red metal" copper possesses a color like no other and will add a special warmth and beauty to any bath or powder room.

# BRONZE BATH COLLECTION

The **BRONZE COLLECTION** casts a bewitching spell with intricate details and organic beauty. Hand cast in high relief from the finest bronze, the collection is a compelling tribute to the natural beauty that inspired it as well as the laborious craftsmanship that created it. There is no mass production here. Each sink is a singular work of art in its own right, individually hand cast and carefully finished by hand to give it a unique rustic patina. The finished result is certain to add an unexpectedly earthy element to any bathroom.

# PORCELAIN UNDERMOUNT COLLECTION

Sink: PU-01-W

The **PORCELAIN UNDERMOUNT** sink is elegant in its squared top line and curved bottom. Made from our own formula of high quality fine porcelain clay mixed with other special materials, molded to shape and heated to over 2,400 degrees Fahrenheit. Our factory is located in a town with more than 400 years of porcelain making experience. This process, plus our history, is what gives our porcelain its strength and luminous beauty.

SEE PAGE 80-83 FOR MORE INFORMATION ON ACCESSORIES.

The **PORCELAIN ABOVE COUNTER** sinks offer a rich array of unique shapes for the bathroom. Made from our own formula of high quality fine porcelain clay with other special materials, molded to shape and heated to over 2,400 degrees Fahrenheit. Our factory is located in a town which has more than 400 years of porcelain making experience. This process, plus our history, is what gives our porcelain its strength and translucent beauty.

The **STONE ABOVE COUNTER** Collection is a stunning example of elegant simplicity. There are few more beautiful elements than natural stone that is crafted and polished to perfection. This process begins with a solid block of 100% natural stone that is then given its rough shape. Then skilled stone craftsmen take up to 10 days to hone each sink to its final form. Since the detailed grain displayed in no two blocks of stone are alike, each sink is a one-of-a-kind creation and an elegant focal point of any bath.

# STONE & STAINLESS BATH VANITY

Together LENOVA's solid natural **STONE SINKS** and chic **STAINLESS STEEL STANDS** create a vanity that is at home in any bath design. The warmth of solid stone matched with the sleek lines of a satin-finished stainless steel stand creates an elegantly sophisticated centerpiece for the bath. The sinks are available in three standard sizes and three colors to compliment most bathrooms. The unique hidden drain system in the back of the sink provides a clean look to these handcrafted sinks. The sinks and stands are available separately for maximum flexibility.

The **NOVAGRANITE COMPOSITE** Sinks bring a new level of science into the kitchen. The material is a mix of 85% crushed granite powder and 15% organic and non-toxic chemical materials. The high density of granite in these composite sinks makes them highly resistant to scratches, chips and stains. The heat handling capabilities of this composite will allow you to take a hot pan from the stove directly to the sink without danger of burning or marring the finish. Because of the ingredients, **NOVAGRANITE** is completely recyclable. **NOVAGRANITE** combines stone and science resulting in fresh and exciting sink styles.

# STAINLESS STEEL FAUCET COLLECTION

The **STAINLESS STEEL FAUCET** line includes wide variety of models designed to fit any kitchen with styles ranging from sleek and modern to elegantly traditional, in single lever or dual handles. As with all Lenova products, the faucet line is designed not only for its beauty but is built to last. The type 304 stainless steel construction eliminates the concern associated with lead, and the satin polish on the stainless surfaces insures a lifetime of good looks with minimum care. All the faucets have long-life ceramic disk cartridges, the stream and spray heads are stainless steel NOT plastic and a limited lifetime warranty is standard on the stainless components.

## OZONE IS MOTHER NATURE'S ANTI-MICROBIAL DISINFECTANT

- Ozone water will improve food's shelf life, remove odors and increase the level of protection from food born illnesses.
- Ozone is 100 times stronger than Chlorine and kills bacteria 3100 times faster.
- Ozone kills ALL common Food Pathogens: E-coli, Listeria, Shigella, Salmonella, Norovirus and Legionella; and removes pesticides.
- Ozone can eliminate the use of hot water and conventional sanitizers.
- Ozone is chemical free; more effective than chemical cleaners, but it produces no toxic by-products and leaves no residues.

Spout Reach: 4"

The **AQUALOGIC OZONE FAUCET LINE** is the first and only faucet to be a conventional hot/cold faucet and a green, ecologically safe way to clean food and hands and any other water safe surface without any chemicals or chemical residue. The faucet features a small, thin ozone generator that uses regular house current to economically and naturally produce ozone water. The **AQUALOGIC** line is simply as elegant in design as it is extraordinary in function.

This powerhouse faucet hides its extreme cleaning strength in a sleek form with sophisticated curves and modern style.
