

Lakeview Goldens

Full Registration Guarantee

**All sales are final and have been approved by Brandon Stover.
Purchaser is responsible for all vet bills after pick up of the puppy.
We have the right to ask for a second opinion at your expense.**

Please remember that puppies are living animals and are subject to health problems even when there is no history of this problem in their background.

Puppies will be vet checked prior to placing in their new homes.

We require that you use the Lakeview prefix when naming your puppy, so it will be written on the registration application when you receive it.

As a purchaser of a full registered puppy, you are agreeing to have an O.F.A. or Penn-hip certification on hips and elbow, eyes cleared by a dog ophthalmologist, and O.F.A. heart clearance before breeding.

Section 1: 48 Hour Health Guarantee

Puppy must be examined by a vet within 48 hours of pick-up. If a problem is found not covered under section 3, or if a family member is severely allergic to puppy, we must be notified by phone. You must return puppy, with all paperwork, within 24 hours with a letter from your vet or doctor stating the problem. Full purchase price will then be refunded. **After 48 hours, you have agreed to puppy as is.**

Section 2: Three Year Replacement Guarantee

Sorry but we can not refund money, only replace the pet.

Lakeview offers a replacement guarantee for any dog that has any defect proven to be genetic. If you suspect that your puppy or dog has a defect that is proven to be genetic, notify us by phone, letter, or e-mail. A written and signed evaluation by your vet must be sent to Lakeview.

- If you suspect your pet of having hip or elbow Dysplasia, you will need to have them x-rayed and have the x-ray sent to O.F.A. for evaluation.
- Eyes need to be checked by a dog ophthalmologist and results sent to Lakeview.

To qualify for a replacement puppy

The dog must not have whelped or sired a litter and must be owned by the original owner. The dog's registration certificate must be signed and returned to us or a letter from your vet stating that the dog was spayed or neutered.

Section 3: Not Covered Under This Guarantee

- Giardia, Coccidia, and worms (These are common parasites.)
- Communicable diseases after 48 hours
- Etc.

Lakeview, Brandon Stover, and Melissa Stover are not under any circumstances responsible for any part of any vet bill once the puppy is picked up!

I have read this guarantee, understand it, and agree to all terms. I sign my name as proof.
