

**LEAD & COPPER RULE MONITORING AND REPORTING VIOLATION  
MANDATORY LANGUAGE - TIER III**

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER**

Greenwood Water System has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we are doing (or did) to correct these situations.

*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During January 1, 2018-June 30, 2018 we did not monitor or test for Lead and Copper and therefore cannot be sure of the quality of your drinking water during that time.*

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for Lead and Copper, how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which the follow-up samples were [or will be] taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were or will be taken
<i>Lead and Copper entry point sampling</i>	<i>1 per six-month monitoring period</i>	1	Jan 1- Jun 30 2018	11/12/18

**What is being done?**

We are working to correct the problem. For more information, please contact Greenwood Water Corporation at (432) 687-2070 or 7107 FM 307, Midland, Texas 79706.

A sample was collected the week of 11/12/18 and sent to the TCEQ
