Quotes:

“This candidate’s impressive academic and personal qualities make him a pleasure to be around and a boon to all that he engages with, whether educationally or socially. His passion for learning, forward-thinking and proactive attitude, effective leadership, desire to help those in need, will be a valuable addition to any campus.” **Dawn Hester** - AP Physics teacher

“Studying EECS at MIT has been my dream ever since I could remember, and for the Anchor Scholarship Foundation and it’s donors to support me in achieving my dream means a great deal to me.....In the future, one of my main aspirations is to pursue a career within the technology and entrepreneurship sectors, harnessing and developing technology in order to advance science, better society, and improve people’s lives. I want to give back to the communities around me so that others may have better lives and receive the support they need. To me, the Anchor Scholarship is a personal example of how great an impact that support can be on someone’s life, and I aspire to emulate it in the future.” **Kevin**
