

To whom it may concern

Letter of recommendation

Since the middle of 2009 Mr Heyko W. Wedekind is serving [REDACTED] the PRT Feyzabad.

His main duty is to ensure the supply of the PRT with aviation fuel (F 34). Beside this he manages the construction of the new tank farm nearly on his own. From the very beginning he proves his outstanding performance and exceptionally reliability in all his tasks and duties. In every situation he managed to support PRT. As PRT is depending on the support by air it is an important and responsible job he has to fulfill.

He proved his competence in handling and managing the local workers as the local head [REDACTED] to ensure a fast and professional progress of the important and difficult construction work.

He is working with different parts of the PRT (eg Infrastructure Team) to ensure a complete information of the ongoing work and is always a "helping hand" when needed.

Mr Wedekind showed under sometimes challenging circumstances, weather conditions and changing levels of threats in the PRT that he is capable to adjust new situations on a high level and that he is a excellent partner to the PRT.

PRT ist pleased to work with him due to his outstanding competency and professionalism
