Subject: "B-day" card FBI Re: Chemtrails Re: xxx Re: List of atts Fw: Resend Fw: Important Energy Weapon/Havana Syndrome like attacks Miami-Dade

Today **12.7.22** I received the attached card in the mail (3 pics). Nothing was written on the back of the envelope and there was no decorative stamp (unlike the card from last year [att pdf]). This current "card" - I view them as threats - was sent (postmarked) on **12.5.22**... The people doing this hate America and all we stand for, especially the Constitution, laws, Bill of Rights. Of course today is **Pearl Harbor Day**. "They" seem to be associating American history and politics with many of their dates, other than those dates from my family. This to me smacks so much of rogue FBI BS. They play games and like to stir up trouble to justify their existence. Most of this is more likely to be them rather than CIA as the latter is not supposed to "work" stateside - if one can term this "work". It also smacks of Jews who are evil and with dangerous Hubris - I would say Susan Markley formerly with DERM, of course along with the University of Miami and those I have mentioned there and in my prior notes. Jeff Borg. Richard Flamm. Anne Adelman (and her UM older married affair). Aaron Wolfson. Stephen Nimer. Harry Goldszmidt (CPA). (Likely up to UM's Board of Trustees.) All the entities involved feel they are above the law. Are they?

Today's card was postmarked from Tampa, St Petersburg, but supposedly from the Miami American Legion (and with the same return label stick-on as last year). Last years was postmarked Miami...Flamm is in the Tampa area and my ex-boyfriend xxx used to live in St. Pete. Please recall the very similar circumstances last year. Last year's card is in the attached PDF. My concerns for that were voiced to the CIA OIG...

...These people are barbarians, and it seems it is your job to find out who they are. Maybe you already know? Please share with me? I am sure the FBI is heavily involved, and began a letter to you in these regards on 12.3. I hadn't finished, but here it is. These psychos are not sending me

these letters for no reason. When is the next murder gonna be? At least on one of these dates here. Yes, I have continued to report these savages and targeting (see updates to my site) very recently as well to another group I have belonged to. This group is made up of very powerful, good Jews and non-Jews. Will they help end this horror - I certainly hope so.

I began this 12.3.22:

I meant to say previously that some of the things I have reported, particularly to the CIA OIG along with other murders and hackings, may very well have been done by the FBI, including UM's Susanna Arias Morales' FBI "relative". I did report a number of concerns to the DOJ. I figure it is the FBI (less likely ADL/Mossad but it would seem they have some role) who intercept my calls and "intervene" with my outreach attempts to police, Secret Service, and other entities I have mentioned. Some of these people were just civilian acquaintances, but it appears they were illegally, horribly, threatened. One totally disappeared off of twitter, his phone not answered - hope they didn't kill him. Rogue FBI are involved with the Fusion Centers and may have been involved with my targeting since Day 1. I'll repeat again - this hell is financed with dark money - and certainly our tax dollars - all of it.

Most FBI are likely very ethical agents. (Like to think so anyway.) Below are links to some of what the bad ones have done. It is not inclusive by any means. I would read more about COINTELPRO, J Edgar Hoover, etc. COINTELPRO was the name for the coordinated intimidation, blackmail, and murders of protestors, anti-war, and peace activists during the Vietnam War. Seems nothing has changed, in fact gotten horribly worse. Are these rogue CIA, FBI, military, etc. extremely dangerous to our humanity, fundamental rights, and values (i.e. The Constitution and Bill of Rights)? I would say, yes, scarier than any other external and internal threats.

Thank you again. If our judicial system does not stop this "high-level" anarchy - only a matter of time before everyone else will be next. These ingrates will off each other if they were the last standing. Let's hope they're not.

Subject: Chemtrails Re: xxx Re: List of atts Fw: Resend Fw: Important Energy Weapon/Havana Syndrome like attacks Miami-Dade

Dear Mayor Levine Cava and MDPD Staff,

Not sure if you have heard of chemtrails but I have seen three directly over my home, two times within the past few days. They have dangerous nano-tech. They will affect all of us, just as energy assaults will - some places in the US have these trails all over the skies (last videos below). Was it just a coincidence that I was protesting across from UM on Thanksgiving Day (24th) for 3 hours and on the 26th for two hours? (See protest signs at my site ourconstitution.info.) I noticed one chemtrail on 11/25 (last two photos - north-south) and after I got back on the 11/26/22 (first three - east-west). These thick substances are not from passenger flights, but rather specialized planes. I am demanding that this cease and desist (as well as satellite energy assaults and gangstalking). All should be banned in America - certainly Florida and Miami-Dade asap as leaders and role models.

Thank you,

Judith Futerfas

Dr. Giordano lecturing at Modern War Institute at West Point:

8:36 "...front of my pen...amount of nanomaterial... could in fact affect all of you...although it may not be that the sky is falling - yet - folks, it looks like rain...bring an umbrella...what's gonna rain down..."

other speaker: ...nanotechnology and biotechnology filters down from the hydrosphere into water supply and food chain...now every American...all...Americans are infected..."

Screen: ..."individual...face to face with a conspiracy so monstrous that he cannot believe it exists..."

Giordano at Loyola Marymount:

9:20 (29.48 at link below) ...can we create designer brains...are they targetable after birth...are they modifiable throughout the lifespan...answer to each one of these...yes...I give you no science fiction...only science fact..."

11:35 (Giordano other lecture) "...Linking brains to the internet and data clouds...yeah - we can do these kind of things..."

other speaker: "...Patent number 6011991 Remote Brain-Computer Interface Neural Monitoring i.e. via satellite...From the location of the individual to a remote location so that the brain activity can be computer analyzed..."

Researchers in Finland and the US studied how certain nanoparticles interact with cells. Results indicated that nanoparticles may alter cell structure, causing the cells to die. Currently, nanoparticles are widely used in cosmetics, electronics, optical devices, medicine, and in food packaging materials. Nanoparticles may well be the asbestos of the twenty first century: a considerable threat
