FWS Service Employees

CLM 8196 (A/B)

Congressional and Executive Branch Priorities and the U.S. Fish and Wildlife Service

Two Webinars Sponsored by NCTC
December 1st, 2020 and March 8th, 2021

Woods Institute is offering two webinars for FWS Employees on the results of the 2020 elections. The effects that the new 117th Congress and accompanying Administration will have on the FWS will be outlined.

For five years Woods Institute has delivered webinars on the policy process in Washington, DC, tailored to its clients, through the WebEx portal. FWS staff from all 8 Regions have previously participated. The information provided in these webinars is vital to the work of FWS staff. Courses given by this means in the time of the COVID-19 pandemic enable participants to stay informed and close to home.

This seminar will also address the competencies of External Awareness, Political Savvy, and Partnering included in the OPM Leadership Competencies.

These three-hour webinars and accompanying exercises will cover:

- Key Players in the White House and on Capitol Hill with influence over the FWS issues
- New members of Congress as well as the incumbents with interests in FWS budget and issues
- How to Work with Congress

Contributions will be by Dr. Patricia D. Woods Ph.D., President, Woods Institute, and Representative Rob Wittman (R), First District State of Virginia and Member, Committee on Natural Resources, United States House of Representatives.
