

Wireless Air Gyro Remote

Wireless Air Gyro Remote is a multi-axis device which integrates the key functions of a keyboard, a mouse and a remote control. It supports Android Smart TV, IPTV, Networked set-top Box, Mini PC, Android TV Box, HTPC and PCTV. It's easy to use, just plug and play.

Features:

1. Built-in 6-axis inertial sensor, 360-degree free space for action recognition and sensing, flexible and accurate control
2. 2.4GHz wireless radio frequency technology, high bandwidth and stability
3. 1:1 somatosensory control and action recognition, extraordinary user experience
4. 2.4G wireless keyboard input
5. Infrared remote control
6. 3D mouse performance equals to that of traditional optical mouse
7. 1600dpi, no drifting, support continuous single-pixel movement
8. Support Android, Windows, Mac OS, Linux and so on
9. Perfect performance, low power consumption and easy operation

Specifications:

Transmission: 2.4G RF wireless
Sensor: 3-Gyro + 3-Gsensor
Number of keys: 81
Range: 10m
Power Consumption: Less Than 10mA
Battery Type: AAA*2
Material: Plastic and silicone
Size: 172*52*19MM
Weight: 100g.

Package Includes:

1 x Mouse Remote Control
1 x USB Wireless Receiver
1 x User Manual
