

C-160 Metal Wire Shopping

Product Description

traditional shopping cart design with enhanced strength and durability

trademark contemporary design with sleek, curved chassis and basket provides a stylish addition to your store

narrow cart width fits most aisles while maintaining maximum shopping capacity

seamless welded metal frame for added basket strength and to prevent corrosion

double wire on top of basket frame for stability

fixed lower tray for reduced noise and greater durability

corner bumpers included to prevent damage to product and fixtures and for customer safety

purse hook encourages shoppers to hang bags outside of the basket, keeping baskets free for shopping

5" non-marking wheels ensure that your store's floors stay clean
