

Approved Paint Colors for Town Homes and Condos
Keep this page for your reference

The board has approved the following color schemes for town homes and condos, to provide consistency in the townhouse rows. The color codes are from Sherwin Williams 'Exterior Schemes - Classic Colors' paint palate, but Home Depot, Lowes, Wal-Mart, etc. can match the colors if you take in the SW number. Please note that an EPB form is still required prior to painting. If you are using the approved colors on a town home or condo, you do not need to include paint chips, just the SW numbers.

Town houses:
