Dr. Bruce Gordon	<a href="mailto:docnputz@wctc.net">docnputz@wctc.net</a>

1. Call to Order
2. Attendance: attached.
3. Minutes last meeting not reviewed.
4. Topics Discussed:
  - (1) Stop the Bleed participation to continue. New Video much more oriented to laypersons. Placement locations could include next to AEDs & inclusion with new & used car sales items which could be paced in "glove box. National organization needs institute billboard displays. Dr Gordon will follow up

- (2) Educational outreach needs to update EMS Medical Director, Service Directors & providers on SALT as the preferred MCI triage system. Michal will assist with making a list EMS Medical Directors & Service Directors to approach with the materials. Printing of the newest laminated cards should be pursued. Follow up on printing options for the cards will be done at the next meeting.
- (3) The Trauma Basics Program will be included in outreach education for services.
- (4) Elevated Shock Index Predicts Hospital Admission and Mortality article was circulated. A topic like this simple calculation in outreach education could act as an opportunity for EMT-Bs & FRs could make them more like contributors to trauma system outcomes.

5. Next Meeting – July 25<sup>th</sup>.

6. Meeting Adjourned.

Submitted: Bruce Gordon MD
