

League of Women Voters - Members, Friends

All are welcome to join us for a Community Case Study Meeting  
Sunday July 26, 2020, 7:00pm

During the past year our League, along with Leagues throughout the country, have been involved with a program begun by Harvard Professor David Moss, author of Democracy: A Case Study. He believes the case study method is especially effective for teaching high school students about democracy and civic engagement. His team, in cooperation with the League, has offered teachers, sponsored by local leagues, the opportunity to attend workshops to learn the Case Study Method to use in their classrooms. For a more complete discussion of this process locally please go online to: [www.lwwvc.org](http://www.lwwvc.org) and read about our teacher, Melissa Becker, and her workshop experience in the Spring 2020 Voter newsletter.

Melissa will be presenting Democracy and Women's Rights in America: The Fight over the ERA to introduce the case study method to our community. Originally the program was scheduled for April at Warren Area High School. However, we had to reschedule and change to a Zoom format for this July 26 meeting.

All participants will receive a copy of the case study via email after registering for the program on the Warren League website: [www.lwwvc.org](http://www.lwwvc.org) You will have a week or so to read the material; it is very interesting reading! You may need to learn how to use the Zoom app on your home computer or device. We are hoping that many of you will participate in the program; however, if you are not comfortable participating, we hope you will still join us to meet Melissa and hopefully some of her students, to watch and to listen. If your internet is not the best, it is possible to call in by phone for audio only. A few days before the meeting you will receive in your email the invitation to join the Zoom meeting.

We very much look forward to welcoming you to this meeting. We hope you will make yourself comfortable, tune us in and learn some history!
