

Pinellas Preparatory Academy

Grade 6-8 Math Summer Homework 2019

****If you are enrolling into a Math summer course through FLVS you are not required to complete the math summer homework.**

Dear Parents and Students,

This summer we are using Prodigy for our Math summer homework. Students will be exploring and learning skills that will help them become more successful in their math course for the upcoming school year.

How to join your teacher's Prodigy class:

1. Go to www.prodigygame.com
2. Enter your account details to create your student or parent account.
3. Once logged in, follow the on-boarding instructions.
4. Create a username and password and be sure to enter the correct class code from below.
4. You're set. Now click Home to start learning.

Most of the students did this in class before school ended. Please make sure they write down their username and password and put it somewhere safe or they will have to create a new one and start over again. (Idea..save it in your cell phone under contact: Prodigy)

Class Codes: **(Follow the code for the class you completed THIS YEAR).**

6th GRADE 2018-2019: **51BB9B**

7th GRADE 2018-2019: **9625F3**

8th GRADE (Pre-Algebra) 2018-2019: **C64AAC**

Algebra I 2018-2019: **E44E87**

Students will need to complete 45 minutes a week or 15 minutes a day for three days a week, however they would like to do it. They will be handing in the log distributed in class or printed from PPA website, documenting time spent that should coincide with the teacher's time spent reports.

Students will just need to make sure to use the correct class code, based on what grade/class they are currently in, **NOT** entering next year.

If you have any questions, please do not hesitate to reach out to your child's teacher for the 2018-2019 school year.

Mrs Turner- 6th Grade and 7th Grade Math
