

145 outpatient procedures now approved

for your Humana Medicare Advantage patients

What's new?

The Centers for Medicare and Medicaid Services (CMS) shared with Humana that the current inpatient only list applies to traditional Medicare, but not Medicare Advantage (MA). That may be good news for you.

 Humana-covered MA patients may now go to outpatient facilities and ambulatory surgical centers for **145 procedures** that were previously on CMS's inpatient only list.

Resources for you:

- **PROCEDURES:** A list of newly-approved procedures is included on the reverse page.
- **PowerPoint PRESENTATION:** A presentation is available for use with outpatient facility leadership.

What's next?

If you're a physician, you can:

- begin reviewing the 145 procedures on the reverse page
- determine which upcoming surgeries for Humana MA patients may be appropriate for an outpatient setting

If you're a part of an outpatient facility or Ambulatory Surgical Center, you can:

- make staff aware your physician partners may refer Humana MA patients for procedures not typically covered in your facility
