# What Can Our Clocks Do For You?

## It's More Than Just a Clock...

Our advertising clocks double as a sign or display, promoting a company logo and a descriptive message. Each clock is handmade with pride and built to last. You don't hear that very often.

Our large custom clocks can ensure repetitive exposure of your logo and brand name. It serves as a constant reminder of brand and reinforces it every time a customer checks the time.

## LED vs Neon...

Who's the energy Saver?

When it comes to energy consumption, LED lighting definitely supersedes Neon lighting. In fact, the energy saving attribute of LED lighting is one of its major selling points. It has been estimated that a typical LED lamp or sign consumes about 5-10 times less power than a comparable Neon lamp. This low power consumption also means that a LED lamp will not produce as much heat as a Neon lamp.

LED has no Hydrogen gas or Mercury and is completely **environmentally friendly and safe.**

## HOW OFTEN DO YOU LOOK AT A CLOCK?

### Many times a day!

And so do your customers or clients. So doesn't it make sense for them to see your message or company logo everytime they look?

They're a great form of advertising for the money!

*But best of all...  
They're just cool to look at!*

### YOUR CUSTOM ARTWORK

Your artwork for your company logo is important. We try to match the style and colors as close as possible.
