

# VAS Parent Meeting

April 6th, 2020

# This is what we know:

Seniors; Grades are pushed forward. Meaning if they passed 3rd quarter then they passed the 2nd semester.

All other students; 3rd quarter grades are not finalized yet. This will give students time to get missing work in to teachers to update grades.

Supplemental work given during the shutdown either in paper form or online is not required. It will be corrected and feedback will be given to the students and is a good idea to keep up on school work.

# The Plan for Students

Teachers calling for survey on connectedness.

Chromebooks available if needed.

Expanded wifi network at school

If all else fails we will provide paper packets.

# Why the push for Online

One of the mandates is for us, as a school, to not only educate students but to also look after their mindfulness. Online, through virtual meetings is a great way for us to fulfill that mandate.

# Remote Learning Plan Elementary

## ELEMENTARY

Maximum online Instructional Minutes Additional time may be assigned for "off line" work for ELA, math, science or social studies, not to exceed 15 minutes. Independent reading expectations and enrichment options are allowed beyond the 30 minutes of instruction.
