

Duval Update
9/4/2018

Florida Fish and Wildlife will be relocating turtles and other critters from the Perk ponds the week of the 9th. Thereafter Cline Construction will expand PP1 and 2.

They will access those areas via construction roads to the north and to the south. They will not traverse our roads.

After the work is completed and the DEP approves Perk Pond 3 will be conveyed.

The lowering of the pipe and the promised berm will follow.

KB anticipates its first Las Casitas model at the site sometime after the first of the year.

A complete report has been sent to the Parcel Presidents.
