Understanding Your Dance Level

Make sure to choose your classes wisely. We've tried to ensure there will be beginning, beyond beginning, intermediate, and intermediate/advanced level classes offered each hour. The classes are set up with different dance abilities in mind. If a class is labeled as intermediate, that is the level that will be taught. If you challenge yourself by taking a higher skill level class, please be aware the material being taught may be more complicated than you're used to.

Beginning: Minimal knowledge of the dance. Basic footwork, framework, timing, and lead/follow techniques will be taught. Basic techniques are always helpful, *even for more advanced dancers to review.*

Beyond Beginning or Beginning +: Some prior knowledge and experience with the dance. More of the basic footwork, framework, timing and lead/follow techniques will be taught. It is assumed the dancer is comfortable with the basic timing and concepts of the dance. Sometimes basic timing may be reviewed before more turns and concepts are introduced.

Intermediate: Understanding of basic rhythm, timing, technique, foot positions, and common movements is assumed. The instructor will not cover the basic timing and will build on your previous knowledge and patterns. Some class time may be devoted to technique, execution and styling.

Intermediate/Advanced: Dancers should be more proficient with timing, common dance patterns and concepts than intermediate level. It is assumed the dancer can perform intermediate patterns with correct footwork, timing and partnership. More complex patterns will be taught allowing the dancer to "play" with the music and the partnership.

Workshops

Saturday, February 17th

	Bellevue Grand (1st Floor)	Redmond (1st Floor)	King County (1st Floor)	Skyview (2nd Floor)	Salon D (1st Floor - Beside Bellevue Grand)	Kirkland (1st Floor)
