Starlink Mobile App Setup Instructions

Download the Mobile App – Search Napco Security

1. Open Mobile app and press settings

2. Enter your Account # _____

3. Enter your Password # <mark>Main User Code for Alarm System</mark>
   To change please contact our office

4. Enter Description - Optional

5. Press Home Icon at top of screen. This will take you to the arm/disarm screen.

Each time the app is opened the system will retrieve and display the current status of the alarm system. It is important to **close** (not minimize) the app after each use. Iphone sometimes takes a few hours before app will initially connect. Toggle description area if not communicating.
