

Pamper your body.....feed your soul!

Sisters Soap began as a joint venture between sisters Caitlin Hunter and Megan Owen. Now, while Cait focuses on her award winning cheeses, Megan crafts the wonderfully moisturizing soaps using goat milk from Cait's farm, Appleton Creamery.

Just as Cait's cheeses delight your palate and leave you craving more, Sisters Soaps will awaken your senses and leave your skin feeling soft and pampered. We challenge you to resist becoming addicted to both!

Our soaps are visually stunning as well as nutrient rich. The addition of dried flowers, herbs and seeds make each bar unique and appealing. The use of recycled containers for molds allows for a variety of unique shapes that you won't find elsewhere. Our large selection of scents ensures that everyone will discover a personal favorite!

Because Sisters Soaps are all hand poured and hand cut, individual weights may vary slightly.

Did you know?

- Cold processed soaps retain their natural glycerin, which is a soothing emollient. This glycerin attracts external moisture, so your bar of soap may "sweat" during hot, humid weather. This doesn't effect the quality of the soap. In fact, it is proof of the soap's purity!
- Allowing your bar of soap to dry out between uses will make it last longer.
- Hand crafted soaps sometimes form a powdery residue or lighter colored spots. It is nothing to worry about, but is more evidence of its purity!

SISTERS SOAP is made with pure vegetable oils and protein rich goat's milk.

Base oils:

Olive oil (50%):

Very moisturizing. Attracts external moisture & doesn't block natural functions of the skin

Coconut Oil (30%):

Hardens soap

Palm Oil (20%):
Adds lather
