Volunteer Application

Fishing for Success is a non-profit community dedicated to living, sharing, and celebrating the traditional fishing knowledge and culture that sustained generations of Newfoundlanders and Labradorians.

Volunteers are needed to assist in sharing traditional fishing skills (trout fishing from shore and cod processing from shore) and teaching ecology of the Petty Harbour estuary. Volunteers can assist in the field: collecting pond macroinvertebrates, visiting schools and other off site events. Can you rind sticks? If you even know what that is... we need you! Do you have stories to tell? Do tell! Spinning yarns is a vital part of our traditional fishery. And speaking about yarn...are you willing to teach traditional crafts? We also need those new-fangled skills; website support and accounting...If you are passionate about the culture of Newfoundland and Labrador... we NEED you!
