F-22 arriving at Langley AFB

These are Great In-flight Photos of the F/A-22 as the first Aircraft Delivery was being made to Langley AFB in Va.. Langley is to be first Operational AFB for the F/A-22 "RAPTOR". It is a very Beautiful AFB, located in a picturesque location, as you can see in these photos, near Norfolk and Hampton, Va.

The Aircraft flying along with the F/A-22 in several of these photos is the F-15, which will be replaced by the F/A-22 since Testing by the USAF has verified our predictions that the F/A-22 would be several times better than the F-15. In Actual In-flight (simulated) Combat Operations against the F-15, one F/A-22 was able to operate without detection while it went Head to Head against 4 F-15's and (2) F/A-22's against (8) F-15's. The F/A-22's scored Missile Hits (Kills) against each F-15 Aircraft and the F/A-22's were never Detected by the F-15's or Ground Based Radar.

Maj. Gen. Rick Lewis said: "The Raptor Operated Against All Adversaries with Virtual Impunity; Ground Based Systems Couldn't Engage, and NO Adversary Aircraft Survived"!!!

**Thanks For
Watching !!**
