

Steps to Consignment with Sage

1. You will need to take photos of the items you want to consign. Make sure they are looking their best:
 - clean/polish jewelry, metal and wood items
 - clean and iron linens
 - dry clean and spot clean furnishings and fabric items.
2. Visit our website www.sageconsignment.com. On our Contact us page you'll be able to upload up to three photos to submit for review. If you have more than three items to consign, attach the pictures to an email and send them to:

consignment@sageconsignment.com
3. Include the following information in your email: condition of items, amount you want to receive, your timeline for selling, and history that might help us to appraise and sell your piece.

You will receive a reply within 72 hours, letting you know if we can work with your pieces. If we cannot take your pieces, we will do our best to provide you with a list of resources and charitable organizations that may have use for your items

Sage Consignment and Sage Style, will try their best to incorporate your treasures into our décor to show them in the most flattering manner possible. Our goal is to help you sell your pieces in a timely manner and for the highest price possible in the current market.

If you have a larger number of items, we can schedule an appointment to come to you to view your pieces in person. Please call or email your request for a home visit. A copy of our Consignment Contract can be found on our FAQs and Contact us page on our Website.

Thank You!
