

## 2.8-3.5 RM Soybean Trial

ON THE FARM EXPERIENCE  
IN THE FIELD RESULTS

COMPANY	HYBRID	YIELD	MOISTURE	RM	RANK
LG	LG3550RX	87.7	14.1	3.5	1
ASGROW	AG34X0	86.5	14.6	3.4	2
ASGROW	AG32X0	82.4	14	3.2	3
ASGROW	AG33X0	82.4	14.2	3.3	4
ASGROW	AG29X9	82	14.1	2.9	5
LG	LGS3297	81.5	14.3	3.2	6
ASGROW	AG35X0	81.4	14	3.5	7
PIONEER	P34A13	81	14.4	3.4	8
ASGROW	AG31X0	79.2	14.1	3.1	9
ASGROW	AG28X9	77.6	14	2.8	10
ASGROW	AG30X9	76.2	14	3	11
LG	LG2888RX	74.5	14	2.8	12
ASGROW	AG30X8	72	14.3	3	13

**Plot Avg: 79.8**

**Planting Date: 5/16/19 Population: 165000**  
**Harvest Date: 10/18/19 Previous Crop: Corn**

Overall good soybean yields this year have been the trend. Some newer varieties in the plot seem to have an edge this year. LG and Asgrow both showed impressive results in the mid group 3 range.

This year we changed the way we do our test plots. They are done by a third party in a replicated block trial. Each variety is planted in multiple blocks then combined to get an average. This gives us more accurate data than one strip through a field.
