

At Duenas we are committed to achieve excellence in every step along the way on every remodeling kitchen project.

Room Alteration

- We regularly undertake building work as part of a kitchen project and with our architectural engineers and construction partners, we are able to offer comprehensive building works as part of our complete, fully Project management service.
- Whether you are looking to alter load-bearing walls to create an open concept kitchen living space. or extend your property with a single or double storey extension, we can provide a fully comprehensive service to include everything from concept design consultation, planning stages and surveys through to the full build and Local Authority sign off.
- Our previous projects have included single and double storey extensions, full internal refurbishments, loft/garage conversions.
