- Great professor– he clearly made us his priority and always made himself available to talk. I wish we could have spent a little more time in class going over the exact requirements for the outline and to study for the Field Test, but I know that is hard as it is ETS that creates the test.
- One of my favorite professors. Really cares about his students.
- Dr. Sun has been excellent for this course. He really looked to help with our projects and provide assistance any way he could.
- He was a great professor and very helpful.
