

Paula Wagener

Choreographer
Style and Performance Coach

www.paulawagener.com

Over 25 years ago, I had a dream to create an organization and resource center for choreography and style in figure skating...and that dream is now a reality. Thanks to virtual training, Learn to Skate USA, and many camps and clinics nationwide, I have been able to reach out to so many of you through the years and because of you my dream is becoming a reality.

Artistry in Motion was copyrighted in 1992 as a coaching and choreography course. In 2000, U.S. Figure Skating adopted the program into their Basic Skills program and today it has been restructured for the Learn to Skate USA program.

AIM has reached over 450,000 figure skaters and has expanded into competitive figure skaters and coaches education. We are constantly evolving for the needs of figure skaters and their coaches.

Heading into 2018, Artistry in Motion is excited to be offering several new services both on and off the ice as well as online! Throughout my career, I have traveled extensively with my Artistry in Motion workshops and my off-ice class program, working with skaters of all levels across the globe. With the advancement of technology and the access to internet services, the 2018 business model has certainly changed since I founded Artistry in Motion in 1992. I am excited to announce that as AIM enters into 2018, I will be offering a video platform to enhance your program components and skating skills. This will include video of exercises that can be done both on and off the ice.

Each skater has their very own special qualities, and my goal is to enhance what is inside of each and every skater, regardless of level and lay the foundation for your success. Just "Show Up and Be You!"
