
Living Stones CHURCH

Passion for God, Compassion for People.

March 9, 2016

TO WHOM IT MAY CONCERN:

Regarding Denise Mountenay:

I had the privilege of meeting Denise sometime in late 2015, as she approached me about sharing her story with the young people of our church. As I listened to God's grace in her life, I realized that this story needed to be told, not only among our young people, but also to our entire church family.

In January of 2016, I invited Denise to be our Sanctity of life speaker in all three of our worship services. Her presentation was compelling as she talked about a topic that most people are silent and indifferent to; the issue of the unborn child who is unable to speak on their own behalf and therefore are destroyed. As Denise herself shares her story, she has had three abortions and eventually experienced God's saving grace and forgiveness. Since then Denise has explored the huge ramifications that abortion has had, not only on the unborn, but also on the health of women; spiritually, emotionally, psychologically and physically.

Denise is an excellent communicator and she shares with wisdom, grace, tact and without condemnation. Her presentation in our church was positively received and many men and women responded to God's invitation regarding forgiveness and healing.

I would certainly recommend Denise as a speaker on this vital topic that is being dismissed as a society. I realized that 18% of all abortions are committed by evangelicals, and many of them are either ill-informed or live in silent shame.

I certainly share Denise's concern to make this message of God's grace known to our generation who are suffering in a culture espousing death. I believe that God has raised her up to challenge our generation with the compelling facts of what abortion is really all about.

If you have any concerns or questions I would be happy to answer them.

In Christ Service,

Dr. Paul Vallee
Sr. Pastor
