

Are there guide lines that the dining room and kitchen staff have to follow as to disinfecting and sanitizing the tables and utensils? If so please would you send me a copy of those guide lines? Does the Hawaii Board of Health oversee these Retirement homes that prepare meals for their Residents?

As for the Jacuzzi located behind the lower building it still has not been emptied, there is more water in it from the recent rain, however it is so dirty and looks like a health hazard. There still is no carpet on the stairs first floor stairwell left side of the lobby.

Thank you so much for you time and for looking into these concerns. I so appreciate your time, much aloha.
