### Notes

It is not, necessarily, implied that all of the above-mentioned sites are displaying, or have at some time in the past displayed, any unauthorised signage. Neither is it certain that the respective Local Planning Authorities (LPAs) would find that any signage at these sites may be unauthorised. Such matters would be for the respective LPAs to determine, and ultimately for the Secretary of State (DCLG) to resolve any dispute.

Most LPAs, however, consider that car parks on private land having signs larger than 0.3 sq.m. in area do not benefit from deemed consent under Class 2, Schedule 3, of the Town and Country Planning (Control of Advertisements) Regulations 1992 or 2007 (as the case may be) or any other Class within the Regulations.

In the majority of these 305 sites it is likely that the signs are unauthorised. This list is being continually updated as new information becomes available.

Almost invariably the policy of LPAs across England and Wales is that advertisement consent cannot be back-dated – it runs from the date of the Decision Notice.

\* The LPA states that advertisement planning consent is not required here.
