

The following are nativity Scenes from many, members of our Hope UCC Congregation. There are no labels of whose they are. There are no words of explanation, words of personal meanings, or family stories. Just the pictures simple and plain with a note of the variety of styles there are. Use these pictures to reflect on the simple joy of Christmas and may they be reminders to you of the simple story of the great love for us in the Christmas birth!

Merry Christmas to you all!

Kathy Hobson

Nativity scenes are
reminders of the
Christmas story!

Nativities
at Hope
lead us into worship!

Nativities in homes of members of the congregation
also remind us of the Christmas story!

Some nativities are angelic...

Some nativities are very similar...

Some have long family traditions...

Some with characters small and unique...

Some nativities are modern...

Some
have
many
characters!

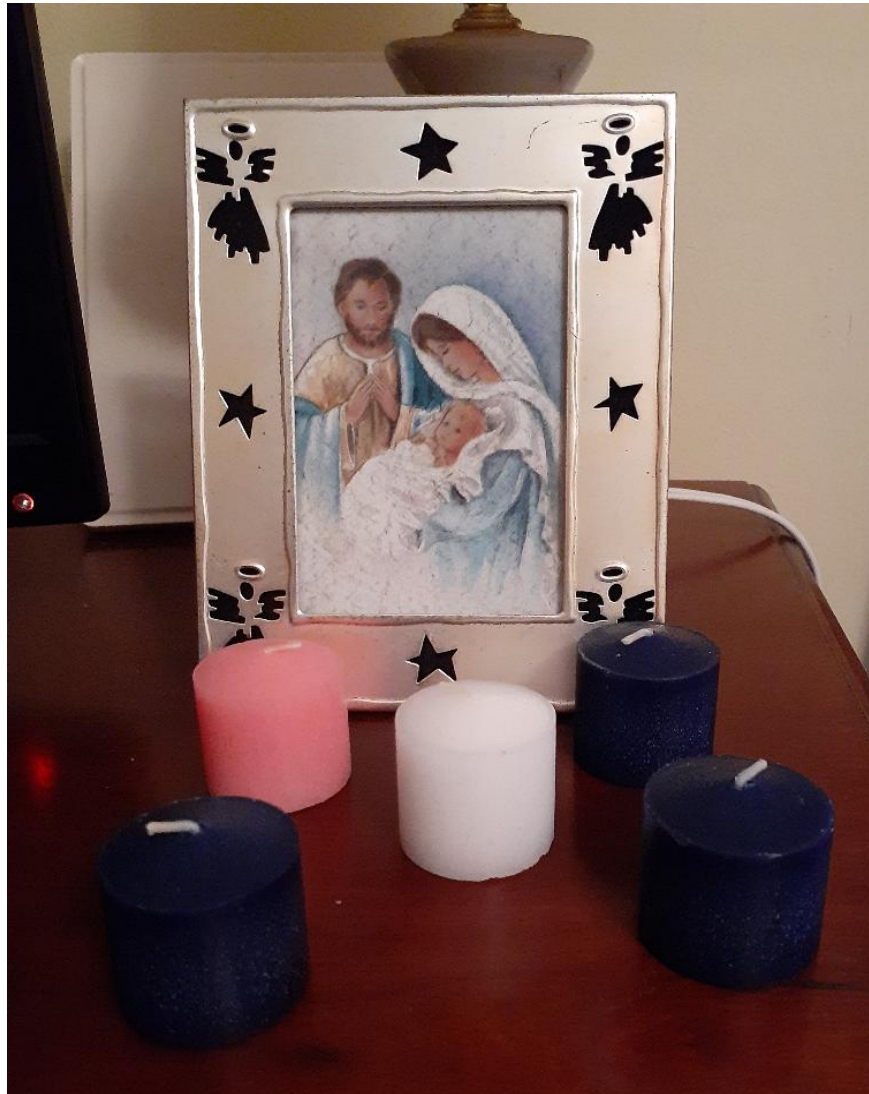

Or not quite so many...

Some
nativities
have
just
A
few...

Just the simple story...

Some nativities are collapsible...

Some come in different forms!

On Candles...

Inside a Christmas tree...

Or in crude wooden nesting figures...

Or in sculpture

Some
Even
with
a
little
fun!

Sometimes more than one
nativity resides at
the same house!

But in whatever style,
may they all be reminders
of the great gift of love
to us in the Christmas
story of Jesus' birth!
