GENERAL INFORMATION

For panel blinds Coulisse offers two system types. Absolute Panel Blind is characterized by easy assembly and user friendliness. The technical features that are incorporated into the design make it exceptional. Apart from easy installation of the panels, the self-correcting stoppers make sure the panels are positioned straight behind one another when the blind is completely open. With the unique panel blind motor the system furthermore can easily be motorized. Ultimate Panel Blind is a unique free-hanging panel blind system with a contemporary designer look. The rail is provided with design brackets and invisible sliding profiles. The technique is based on the Absolute system.

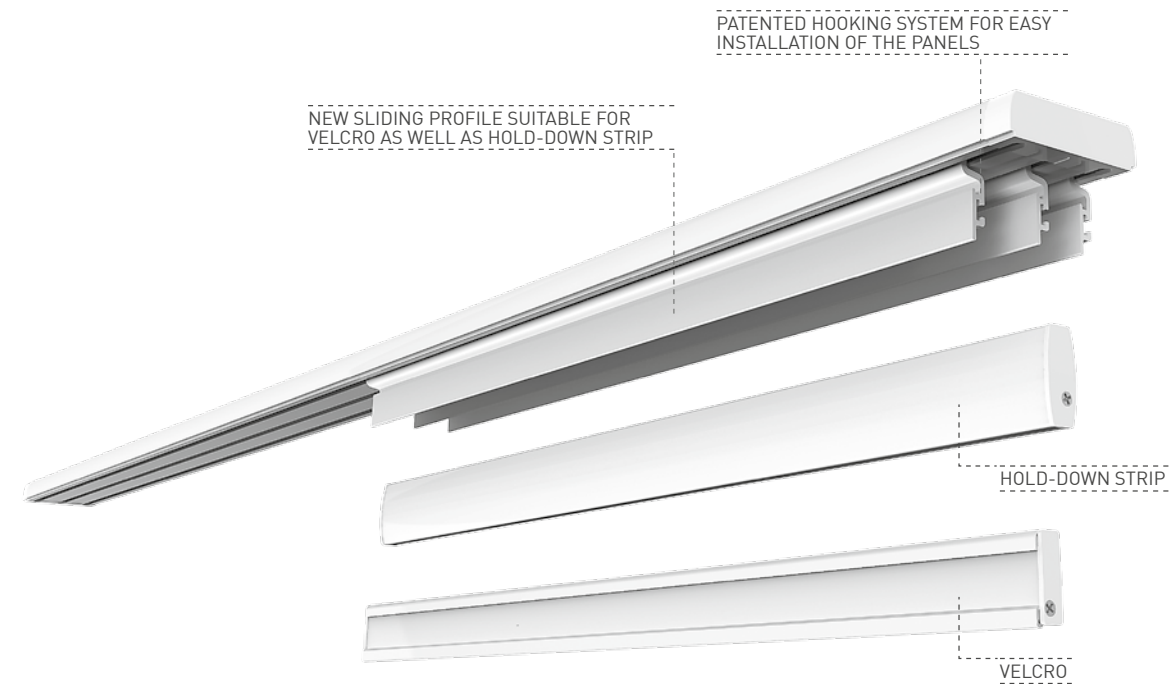

ADVANTAGES

- PVC sliding profile for use of Velcro as well as hold-down strip
- Stoppers can easily be replaced without having to deinstall the blind
- Self-correcting stoppers
- Invisible rail connector for easy transportation of rail
- Window cleaning function
- Panels reach end of the window frame
- No light fissure between rail and panels
- Available in different colours and finishes
- Unique cord system
- Panels positioned exactly behind one another
- Ultimate design system available
- Unique in the market: panel blind motor

UNIQUE HOOKING SYSTEM

The patented hooking system makes it easy to attach the panels even after installation of the rail. The sliding profiles are suitable for the use of Velcro as well as hold-down strip.

PANEL BLIND MOTOR

The Coulisse panel blind motor can be installed on the rail in an optically attractive way. The motor is easy to install, program and operate. The panel blind motor is part of the Absolute Control range for the automation of blinds. The system is characterized by easy and wireless programming and operation from a distance. All motors can be operated with a single remote control. With the Coulisse Solar Strip - a plug and play power supply that works on solar energy - the system is completely wireless.

ADVANTAGES

- Unique in the market
- Compatible with Coulisse Absolute Panel Blind system
- Suitable for configurations: split-draw left and right
- Power supply options: battery, solar or transformer
- RF module integrated into the motor
- Patented driving technique
- Speed control
- Intelligent motor: self-learning, safety check, auto reset
- Voltage range of in between 12-24VDC
- Silent operation

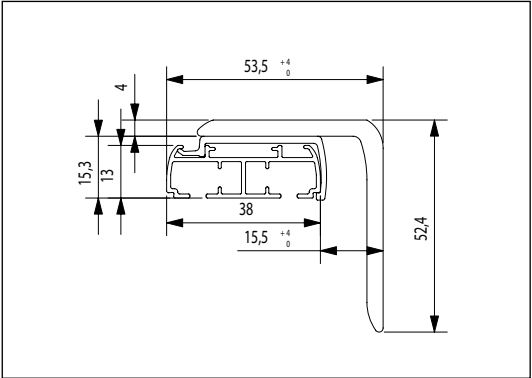

SYSTEM SPECIFICATIONS

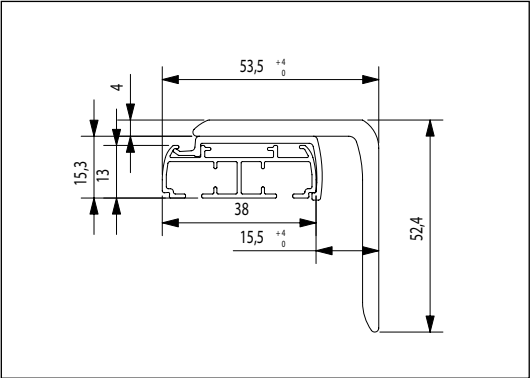

Absolute Panel Blind

Panel width (cm)	Number of runners
0-700	2
701-1100	3
1101-1500	4

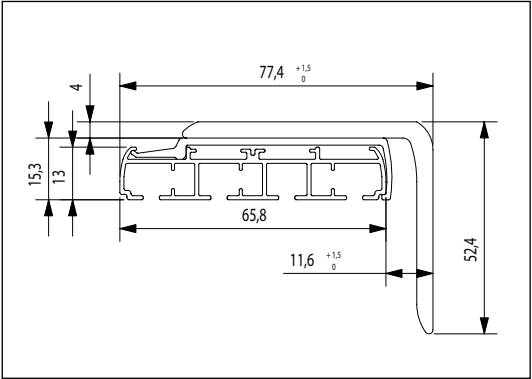

Maximum weight per runner is 1,0 kg

COMPANY PROFILE

Window decorations are more than just products: they are an expression of style and individuality. This has been Coulisse's vision since its establishment in 1992, and it has helped to make the business a leading supplier of both ready-made window-decoration products for DIY retailers and components for assemblers and wholesalers of made-to-measure products. Coulisse offers its clients a comprehensive range of products, from wooden Venetian blinds to roller blinds and from vertical blinds to pleated blinds. Thanks to a constant focus on innovation, creativity and flexibility, Coulisse is even capable of starting new trends and anticipating specific client needs. Coulisse products are developed in Enter and manufactured throughout the world.
