

Mr. Bancroft,

On behalf of the Richmond Touchdown Club I wanted to thank you for installing the nine locking chin strap devices on player's helmets in the North /South Big River Rivalry All-Star Game. The devices worked impeccably. The players who wore the helmets were very pleased with the ease of putting their chin straps on and taking them off. The athletes all wanted the device for their future play. We believe any device that will keep the helmet on will help in preventing concussions.

Thanks again for letting be on the forefront of this devices use.

Rudy Ward
