Chlorhexidine Gluconate & Alcohol Disinfectant

SuperRUB™

सुपररब

Alcohol Based Hand Sanitizer,
Hand Rub and Skin Disinfectant

Trusted by Doctors and
Healthcare Experts

Passes EN1040, EN1656,
EN 1275, EN 1657 European Norms.

Easy to use skin friendly hand rub effective against bacteria including tubercle bacillus, fungi and viruses.

For hygiene and surgical disinfection in operating theatres, intensive care units, OPDs, laboratories, emergency wards, reception desk, waiting lobby area, canteen and various other general & special zones across the hospital premises.

For Rapid Hand Disinfection

Use 3 ml of SuperRUB on clean dry hands for minimum 10 seconds. For surgical hand disinfection use 9 ml and rub it upto elbows for 1.5 to 3 mins.

For Skin Disinfection

Apply SuperRUB on operative and pre-operative skin region to be treated. Allow to dry (upto 30 secs) before incision. Paint skin 2-3 times for optimum results.
