Restoring Success: It's All in the Details

By Lisa Lavender COO Restoration Technical Institute

The cliché, "it's all in the details," could not be more relevant as it applies to the restoration and cleaning industries. From estimate writing, to restoration and repairs, to our presentation, the details can make or break you. Consider an estimate submitted with a misspelled word in the summary and/or a mis-measured room. Consider a perfectly executed job with an empty sports drink bottle left on the window sill, or a repair that had wire snippets left on the floor. It would not be hard to convince any professional restorer or cleaner that the details matter. A missed detail or error can take a job from great to just ok or worse yet, poor. [Read More](#)

ICRC Carpet Repair and Reinstallation Technician (RRT)

August 21-22, 2015

The Carpet Repair and Reinstallation Technician course teaches techniques and safety issues related to carpet repair and re-installation, carpet construction, inspection process prior to cleaning, tools of the trade, floor preparation, adhesives, carpet cushion installation, tackless strip and moldings, seaming, and proper stretching. This class also teaches various repairs that the carpet cleaner/restorer may come up against while dealing with an installed textile. This knowledge will enable the technician to recognize and avoid installation problems that may arise while performing carpet cleaning as well as how to correct many issues encountered. ICRC Issues an Update on the Status of Operations: From Chair

July 21, 2015 Dear ICRC Stakeholder, Benjamin Franklin once said: "When you're finished changing, you're finished." As you all know, we are in the midst of a change in management companies to Metacred, which in the long term will greatly strengthen the ICRC and our ability to serve each and every one of you. However, we recognize that in the short term, the transition experience has been frustrating and had a real impact on your business. Without making any excuses or assigning blame, I want to personally apologize for any inconveniences or problems you may have experienced throughout the transition. I also want to reassure you that the Board, President and staff are working around-the-clock to address your concerns and once again exceed your expectations. [Read More](#)

Tip For Your Success

From our new Partner at Tramex!

The Tramex Moisture Mapping App

At Tramex Meters we are constantly working on ways to make moisture detection and documenting as easy as possible. As part of this effort we have developed a new app to help users of the Tramex Moisture Meters to easily map and present their results visually. Click on the picture for more information!

Tip For Your Success

From our new Partner at Vaportek!

Restorator DUO!

Learn about Vaportek's newest product! Introduced September 2014, this versatile unit treats up to 20,000 cu. ft. Its technology is the same as our longtime favorite Restorator, but with a twist! The DUO can be used with an electrical outlet OR can be used as a battery operated unit in areas where electricity has been interrupted. Batteries last approximately 18 hours.

Tip For Your Success

From our new Partner TS Tech

Do you use a laptop at your office? I recommend that all individuals using laptops should be required to take them home every night. In the event that something happens at your facility, you can still be up an running without any business interruption. [Read More](#)
