

LETTER OF NOTIFICATION

Date: April 17, 2020

Re: Proposed Lake Management Program – *Robinson Pond*

The Taconic Shores Property Owners Association, INC has applied with the NYSDEC to use the aquatic herbicide Clipper in the summer of 2020 to control Duckweed sp. in areas of the lake, thus improving water quality conditions as well as recreational and aesthetic values. The Association will use funds obtained through the Taconic Shores Property Owners Association, INC to acquire the permit and contract for an aquatic herbicide application for Robinson Pond. The Program will be conducted under the supervision of NYSDEC certified personnel with the lake management firm SOLITUDE LAKE MANAGEMENT, NYSDEC Pesticide Business Registration No.16505. A NYSDEC permit application has been submitted for approval for the application of the herbicide Clipper. It is anticipated that treatment applications will take place between May 1st and August 31st. Notification of the actual date of the treatment will be submitted to the Association and NYSDEC 7 days prior to application and will be posted along the shoreline on the day of the application. The roads along the lakeshore will be posted at the time of the treatment indicating applicable water use restrictions.

Water use restrictions are as follows:

Product	Swimming	Fish Consumption	Animal Consumption	Drinking, culinary or food processing purposes	Irrigation
Clipper	None	None	< 50 ppb	< 50 ppb	5 Days

The product label is available for review on Solitude Lake Management’s website (<http://www.solitudelakemanagement.com/product-labels-new-york>). In the event that you as a riparian owner or vested riparian user have any questions or objections to the proposed aquatic plant management program or water use restrictions, please contact the following agency within 21 days of receipt of this notice. Your objection must be in writing and demonstrate that your use of water will be significantly adversely affected (per the NYSDEC’s policy). Lack of comment will be considered consent to the treatment and water use restrictions.

Mark Solan
