

# Sydney Albritton

## MISS RODEO LOUISIANA 2022

Sydney Albritton is 25 years old and resides in West Monroe, Louisiana where she was born and raised. She currently holds the title of Miss Rodeo Louisiana 2022. Sydney is a student of Louisiana State University of Alexandria studying Healthcare Administration. She also holds an Associate degree from Louisiana Delta Community College and is a board-certified optician through the American Board of Opticianry.

Despite not being raised in a rodeo background, Sydney's passion for horses and the western way of life began at an early age. She started riding lessons in the first grade and continued into high school until she was

finally able to purchase her first American Quarter horse. She immediately began barrel racing on her first horse, "Missy", and still enjoys barrel racing today, as it is what first connected her to her love of rodeo. What her parents first thought of as a phase evidently was not one, as she now owns three of her own American Quarter horses.

Growing up, Sydney enjoyed much of her time outdoors on her family's multi-generational farm in Downsville, LA and is still an avid outdoor enthusiast to this day. She thoroughly enjoys hunting, fishing, and trailriding. She also loves to learn practical skills from her mother and grandmother, such as cooking, gardening, and canning various fruits, vegetables, and jellies. However, her favorite activity is educating and passing on the western way of life to younger generations in any way she can.

Sydney is honored to serve her home state as the 41<sup>st</sup> Miss Rodeo Louisiana and promote professional rodeo, agriculture, and the western way of life. During her reign as Miss Rodeo Louisiana she will spend the next year traveling numerous miles, making appearances at different rodeos and events within Louisiana and throughout the United States. Sydney would like to express her sincerest gratitude to the sponsors, donors, friends, and family who have graciously supported her reign as Miss Rodeo Louisiana and made the upcoming year possible.
