

Angela Bandelli

Piece Maker – born in Zurich, Switzerland.
Lived on a remote ranch in BC since 1998. Now living
in Ashcroft.

In 2007 she picked up welding. It immediately took
the main stage for creating pieces of all kinds. Collect-
ing lost and forgotten materials like drifts, rusty junks,
wood, plastics. Now a days dump sites are policed
and regulated therefore she may be considered an
outlaw as there is no stopping her if usable material is in sight. The world is full
of fine waste to taste! The Orange Coverall will pick up and piece together in a
new and unexpected way.
