In your recommendation it is very important that you give information on what your secretary does in your league other than be friendly and smile all the time. If she is helpful, then how she is helpful and what duties does she perform. If she goes more than 100% what is that extra mile – these are things the committee needs to know. Please don't check a box yes unless you know for a fact it was a done deed – rather leave it blank and the committee will review with the office.

Other documents may be attached in support of your recommendation
